Dear Students and Parents:

The Archbishop Hannan High School Graduation Planner is a tool for organizing and arranging the classes that students need to graduate from Archbishop Hannan High School. The idea for this planner was brought to the administration by the students who wanted to use it for course selection and planning each year during the scheduling process. Students and parents can keep track of the curriculum already completed and know what courses still need to be scheduled.

We highly recommend that you print this planner and keep it in a safe place for reference each year during the course selection process. The planner contains information on course credits, TOPS requirements, Archbishop Hannan High School requirements, and state requirements for graduation.

Sincerely,

Nancy Baird  
Associate Head of School
