17. A school is selling tickets to the annual talent show. On the first day of ticket sales the school sold 1 senior citizen ticket and 2 student tickets for a total of \$20. The school took in \$119 on the second day by selling 7 senior citizen tickets and 11 student tickets. What is the price each of one senior citizen ticket and one student ticket?

18. A bacteria culture doubles every 2 hours.
